

Mark Jordan B. Javier

Full Stack Web Developer · BS Information Technology Student

javiermarkjordan@gmail.com · +63 916 716 1667 · linkedin.com/in/mark-jordan-javier · Batangas, Philippines

PROFESSIONAL SUMMARY

Results-driven Full Stack Web Developer and 3rd-year BS Information Technology student (Business Analytics track) at Batangas State University. Builds production-grade web applications across the full stack — from responsive React/Tailwind frontends to PHP/MySQL/MongoDB backends with Node.js and Express.js — with hands-on experience deploying real systems. Holds a Microsoft Power BI Data Analyst certification and multiple Anthropic AI certifications. Actively expanding into Docker, n8n automation, and AI-assisted development.

PROJECTS

Vehicle Rental System

3rd Year — 2025

PHP · CRUD · XML · MySQL · Chatbot

- Developed a PHP-based vehicle rental web app with full CRUD enabling customers to browse, book, and manage rentals.
- Integrated XML data handling for structured storage and retrieval of vehicle inventory and booking records.
- Built an in-app chatbot to guide users through the booking process, reducing friction for first-time renters.
- Implemented an admin dashboard for fleet management, booking approval, and transaction monitoring.

Malvar Bat Cave Café System

3rd Year — 2025

PHP · XAMPP · MySQL · CRUD · JavaScript

- Built a full-featured café management system with product catalog, order management, and CRUD-based inventory control.
- Integrated a conversational chatbot to handle customer inquiries and menu browsing, simulating a service assistant.
- Implemented a dark mode UI toggle and multi-role access for admin and staff users via XAMPP stack.

Online Thrift Shop

2nd Year — 2025

PHP · MySQL · HTML · Tailwind CSS · JavaScript

- Designed and built a full-stack e-commerce platform with complete CRUD — users can list, browse, update, and remove thrift items in real time.
- Implemented a relational MySQL schema supporting product listings, user accounts, and inventory management with referential integrity.
- Built a mobile-responsive storefront using Tailwind CSS ensuring consistent UX across device sizes.

Time Scheduling System

2nd Year — 2024

Java · OOP · MySQL · GitHub

- Built a scheduling management system using Java OOP principles with conflict-prevention logic at the application layer.
- Designed a MySQL database schema for storing schedules and managed version control via GitHub.

Personal Portfolio Website

2025

HTML · CSS · Tailwind CSS · JavaScript

- Built a fully responsive personal portfolio showcasing projects, skills, and certifications through a clean, modern interface.
- Implemented smooth navigation, project card layouts, and tech stack display to communicate professional profile at a glance.

TECHNICAL SKILLS

Languages: JavaScript (ES6+) · PHP · Python · Java · C++ · HTML5 · CSS3

Frontend: React · Tailwind CSS · Responsive Design · Prettier

Backend: PHP (OOP & procedural) · Node.js · Express.js · CRUD systems · XML data handling

Databases: MySQL · MongoDB · MySQL Workbench · Relational schema design

API & Testing: RESTful APIs · Postman

DevOps & Tools: Docker · XAMPP · Git · GitHub · n8n (workflow automation)

IDEs: VS Code · Cursor · IntelliJ IDEA · PyCharm · NetBeans · Xcode

Design & BI: Figma · Microsoft Power BI

EDUCATION

BS Information Technology — Major in Business Analytics

2023 – 2027 (Expected)

Batangas State University – The National Engineering University (BatStateU) · College of Informatics and Computing Sciences (CICS)

- Focus Areas: Software Development, Database Management, Web Application Development, System Analysis & Design
- Key Skills: Object-Oriented Programming, Database Design, Full Stack Development, UI/UX Implementation, Business Analytics

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

Microsoft Power BI Data Analyst · Microsoft

2025

Formal training in data modeling, DAX, Power Query, and dashboard design. Applied directly to Business Analytics coursework.

Claude Code in Action · Anthropic

March 2026

Cert No: ghqee47eduua · Hands-on training in AI-assisted development using Claude Code for agentic coding workflows.

Introduction to Agent Skills · Anthropic

April 2026

Foundational certification covering AI agent skill design, tool use, and orchestration patterns within Anthropic's ecosystem.

Claude 101 · Anthropic

Foundational certification covering Claude's capabilities, prompt engineering, and responsible AI application in development workflows.

Databiz Conference 2025 · Batangas Information Technology Society (BITS)

[Conference]

Theme: "Future-Proof Skills: Empowering Students with Data, AI, and Analytics"

BITCON 2025 · Batangas Information Technology Society (BITS)

[Conference]

Theme: "Building a Connected Tomorrow: IoT Innovations and Beyond"

TechTalks S3 · CICS Student Council

2025

Industry session on next-generation software development and professional practice.

Databiz Conference 2024 · Batangas Information Technology Society (BITS)

[Conference]

Theme: "Equipping Tomorrow's Innovators with Data Science, AI, and Business Analytics"
